Strathmore High School Song

Where the rainbow comes down in California,
In the Center of Strathmore High,
There's a school that is worth all the wealth of the Earth,
And for her we'll live and die,
And for her we'll live and die,
In the heart of our dear Alma Mater,
On a hill looking over the town,
From out of the blue of the sky in Old Strathmore High,
There's a place where the rainbow comes down.
